

Please do the right thing and ensure that the Sinclair program is doing the right thing.

while I realize the current FCC is controlled by the Republicans, I also believe certain departments in the government, such as the FCC, should protect ALL Americans, not just those that support the favored party.

with that said, I believe the FCC did a good thing in pursuing the Superbowl fiasco and made it clear that our country is interested in morality.

However, it doesn't seem to me that Sinclair and its control is very immoral. What if a democratically controlled TV station called FAHRENHEIT 911 news and aired it as an actual program? Seems to me the FCC would have a problem with it. I would hope it would.

So please, do the right thing and keep the integrity of the airwaves of our great nation accountable to be fair and balanced.

Thank you.
